FSG Weather Center

By Jayda Skidmore

Site Purpose

The purpose of FSG Weather Center is to provide accurate weather information and news updates for the cities of Franklin, Springfield, and Greenville. FSG Weather Center will have functionality, usability, and will create a good user experience. It will be easy to find information and will be organized. It will give weather reports, storm information, and provide general information on the conditions in each area. The site will be created intentionally with the idea that most people will be viewing from their phones and tablets.

Target Audience

General Audience:

18+ years-old who live in the area and are traveling through/to the area. Both male and female.

Specifications:

Most visitors will be:

18+ years-old (typically not older than 65-years-old, maybe even younger)

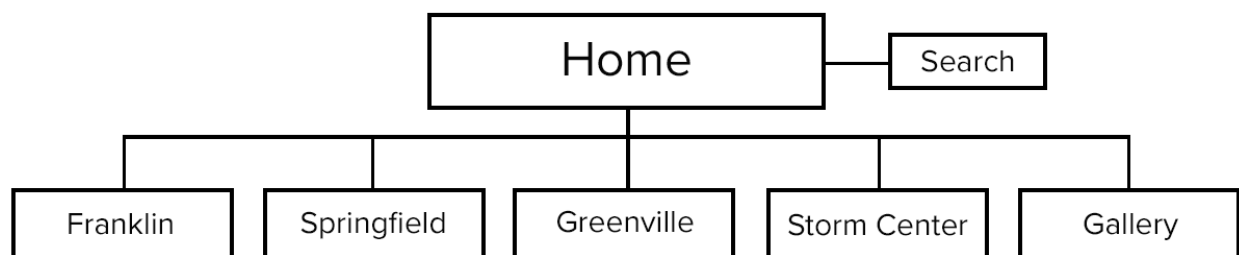

In college or college graduates

Using their phone or tablet (creating a need to extra emphasis on tablet and phone views)

Interested in outdoors activities and/or traveling

Will live in the towns specified, or traveling to/through
